

**San Diego City Employees' Retirement System
City Retirees Pensions Valued at more than \$1 million**

The following table represents the number of retired members of the San Diego City Employees' Retirement System whose total retirement benefit packages are valued at more than \$1 million. A great portion of these pensions were granted as a result of retroactive retirement benefit enhancements approved by the San Diego City Council in 1996 and 2002 that included no corresponding funding source. In other words, the taxpayers of the City of San Diego will be paying for many of these king-size retirement benefits that total more than \$1 million and in some cases, as much as \$1.9 million. The City Attorney believes that the retroactive portions of these pensions, which were approved without a funding source, must be rolled back.
